Bulbs for Fall Planting

These Bulbs produce remarkable flowers; many of them are fragrant and flower equally well in garden or house culture. All merits these bulbs are the perfection with which they are raised and their ease of culture.

We Import Direct

We have now in transit a carload of Dutch and French Bulbs and expect to make delivery about September 15th.

MAIL US YOUR ORDER NOW

Free Delivery By Mail

All Bulbs offered in this list will be delivered to your doorstep anywhere in the United States by parcel post prepaid, at prices mentioned in this catalog.

Outdoor Fall Bulb Culture

TIME TO PLANT—Remember that the "fall" is the time to plant all spring flowering bulbs. They may be put in almost anytime from September 15th until the ground freezes; in fact, we have succeeded with even later planting, but earlier planting brings the best success.

HOW TO PLANT—The soil should be well spaded, and the surface of the beds slightly raised at the center, so that no water will stand, but soak bed good with water when first put in and then later if it dries out. Also, water well in the spring about time bulbs start, but don't let them stand in water. The soil will be better if enriched with pulverized sheep guano or bone dust fertilizer.

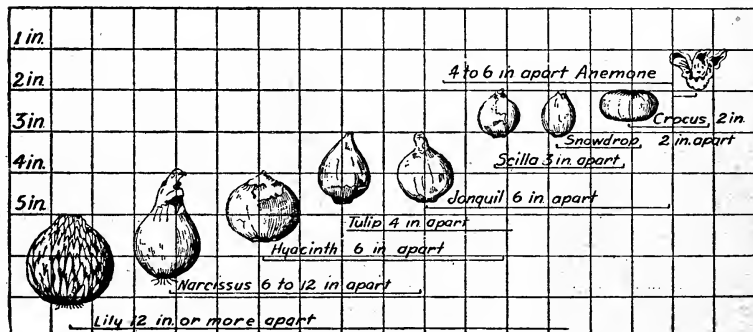

How and When to Order

The best time to order is just as soon as you receive this catalog. We can always give your orders more of our personal attention if they come in before the rush of the fall trade.

Prices given in this catalog are for early orders. Later in the season when our own importations are exhausted we may not be able to always supply at these low prices but will always send FULL VALUE for the money you send us.

AFTER TREATMENT—All bulbs like a sunny exposure, and if protected from the north, will bloom earlier. Before severe weather comes, cover the bed with several inches of leaves, straw or coarse manure, removing it early in the spring. The bulbs do well for a number of years without lifting or replanting. When through flowering, the beds may be planted with shallow rooted annuals, as nasturtiums, petunias, verbenas, etc. If necessary the bulbs may be taken up when the leaves begin to ripen, to be again replanted the coming fall.

DIAGRAM SHOWING DEPTH TO PLANT OUTDOORS

Bulbs indoors do not require such deep planting as indicated in the diagram, there being no danger from freezing and thawing to guard against.

GIANT PAPER WHITE NARCISSUS—Ready NOW

This beautiful Polyanthus Narcissus is not hardy and can only be used for house culture. We especially recommend to grow these bulbs in pebbles and water, their flowers are pure white and very fragrant. 2 for 15c; doz. 60c, postpaid.

For the living room nothing nicer than a dish of Paper White Narcissus can be had in bloom from six to seven weeks.

OUR SPECIAL OFFER 50c POSTPAID

**The Bowl Alone is Worth
More Money.**

**Plant Now in Water---a dish of paper white
Narcissus Bulbs.**

The dozen 60c postpaid.

HYACINTHS—Ready About Sept. 25th.

Hyacinths—All Hyacinths are well adapted to pot culture, open beds or borders.

Pot culture in the window or greenhouse—A 4-inch pot is the best size for the successful growth of the bulbs. It delights in a light, rich, sandy soil; when placed in the pot the upper surface of the bulb should show above the soil.

After potting, water thoroughly and place in a dark, cool cellar, or out of doors, well covered up with ashes, sand or such like material, there to remain until well rooted, when they should be taken in a few at a time, to keep up a succession of bloom, and set in a warm and light place in the house or greenhouse, to bring them into flower.

Outdoor Culture—Plant in October or November in soil deeply cultivated and rich. Set the bulbs about six inches apart and about 5 inches deep. Cover the surface of the bed with light, short manure as a protection to the bulbs during the severe months of winter. Remove this covering as soon as the severe frost is gone in spring.

NAMED DOUBLE TULIPS

Couronne d'Or (Crown of Gold), Large bold flower of rich golden yellow, shaded copper. Excellent for bedding and winter forcing, 2 for 15c; 70c doz.

Boule de Neige—Beautiful, large full flower of glistening white; greatly resembling a peony in form. Excellent for bedding or forcing, 2 for 15c; 75c doz.

La Citadelle, red and yellow, 2 for 15c; 75c doz.

Matador—Glowing scarlet, the purple bloom on the outside of the petals and the perfect egg-shaped flowers make it one of the handsomest of the Red Double Tulips, 2 for 15c; 70c doz.

Murillo—Delicate rose pink, flushed white. Fine for bedding and excellent for forcing, 2 for 15c; 70c doz.

Early Double, mixed, 5c each; 40c doz.

GIANT DARWIN TULIPS, May Flowering

Ready About Sept. 25th.

For the herbaceous border, massed in clumps along the edge of shrubbery or as cut flowers for vases, these are conceded to be the superior of all the Tulips. The enthusiasm of the Darwin Tulip is not due to fad or popular fancy, but rather to an awakened sense of appreciation of their majestic beauty. The rich, bright colors of the blooms, their sombre tones, their many pale and more lovely colors, produced on strong, gigantic stems from 2 to 3 feet, all vie with one another and capture even the casual observer of spring flowering bulbs.

They range in color from the daintiest pink, rose, salmon, red, etc., to deep, rich crimson; from lavender through mauve and light blue to violet-purple and the so-called "Black Tulip."

CULTURE—Bulbs should be planted 5 to 6 inches deep and not less than that apart. Sand to the depth of ½ inch at the base of the bulbs will amply repay the trouble by the provision for drainage during wet weather.

Bartigon, fiery red, immense size, long stems—the best red Darwin Tulip grown, 2 for 15c; 75c doz.

Clara Butt—Salmon-rose, 2 for 15c; 60c doz.

Edmee (Beauty)—A beautiful shade of cherry rose with a lighter border, 2 for 15c; 75c doz.

Farncombe Sanders—A bright shade of scarlet, with a clear white base, contrasting well when the flower is fully open. A broad-petaled flower of large size. Fine for forcing or the border. Height 25 in., 2 for 15c; 75c doz.

Pride of Haarlem—Magnificently formed flower of immense size, brilliant, deep rose, shaded scarlet with light blue base. This variety, perhaps the most widely known for its stately habit and glorious color, is unsurpassed for border planting. Height 36 inches, 2 for 15c; 60c doz.

Sieraad Van Flora—Bright red, large and early, 2 for 15c; 75c doz.

William Copeland—Uniform lilac-rose. May be forced as early and as easily as the early Tulips. The color, when grown indoors, becomes a most beautiful lavender. Height 24 inches, 2 for 15c; 75c doz.

Grand Mixture of Darwin Tulips, 50c dozen.

OLD DUTCH OR BREEDER TULIPS

A fine May-flowering type, very similar to the Darwins, but having an entirely different range of colors, comprising bronze, terra-cotta, orange, brown and other artistic tones. Can be flowered under glass by early April.

	Doz.
Bronze Queen —Soft buff suffused bronzy apricot.....	2 for 15c .75
Dom Pedro —Rich coffee-brown shaded maroon.....	2 for 15c .75
Feu Ardent —Brick red, shaded mahogany.....	2 for 15c .75
Godet Parfait —Rich deep plum-violet.....	2 for 15c .75
Panorama (Fairy) —Deep orange red shaded mahogany. Very large.....	2 for 15c .75
Yellow Perfection —Bronze yellow, shaded golden at edge of petals.....	2 for 15c .75
Choice Mixed —Containing a great many colors.....	.60

PARROT OR DRAGON TULIPS

The following are the showiest and most distinct of this beautiful class:

	Doz.
Crimson Brilliant —Brilliant carmine.....	2 for 15c .60
Lutea —Clear yellow, feathered red and green.....	2 for 15c .60
Perfecta —Striped yellow and red.....	2 for 15c .60
Finest Mixed Parrot Tulips —All flowering bulbs.....	.50

Moles are destructive in your flower beds, lawns and garden—get rid of them, Get a package of "Mole Killer", 60c per package, postpaid.

NARCISSUS OR DAFFODILS—Ready About Sept. 25th.

DOUBLE NARCISSUS

Double Van Zion—The true "Double Yellow Daffodil." Rich golden yellow perianth and trumpet. This is the old favorite so highly prized in old fashioned gardens. It is handsome as ever and deserves to be planted in quantity where it can remain undisturbed for years, 10c each; \$1.00 per dozen.

Orange Phoenix (Bacon and Eggs)—Creamy white with orange, 10c each, \$1.00 per dozen.

Emperor—Perianth deep primrose-yellow, trumpet rich yellow; a very large flower of wonderful substance. Height 18 inches, 10c each; \$1.00 doz.

JONQUILS

A species of Narcissus easily grown in any garden. They are very popular as cut flowers and can be successfully grown by everyone. Culture same as given for Narcissus.

	Doz.
Double yellow, sweet scented,	
2 for 15c	\$.60

	Doz.
Single yellow, sweet scented,	
2 for 15c	\$.60

Prices on all bulbs quoted in this catalog are postpaid—Parcel Post will bring this big store right to your very door. **ORDER TODAY!**

No garden would be complete without the Narcissus or Daffodil. No class of bulbs are more satisfactorily and none so easily taken care of as the Daffodils. They appear just after the snow and ice of winter, and enliven our gardens and lawns. If once planted they are good for an unlimited number of seasons, if they are planted out in a spot where they can be allowed to manure their foliage. They are perfectly hardy and withstand the winter without protection.

SINGLE TRUMPET NARCISSUS

Golden Spur—Extra large, bold rich, yellow flowers, foliage very broad and striking. It is of unusually robust habit and unsurpassed for gardens, pots or forcing. Early and extremely flowering. 2 for 15c; 75c doz., postpaid.

Single Van Sion or Trumpet Major—Flower large and of a uniform deep golden color. Highly prized for outside bedding, 2 for 15c; 75c doz., postpaid.

Giant Princeps—One of the most popular; perianth sulphur white, trumpet rich yellow, 2 for 15c; 75c doz.

Big Victoria—Creamy white perianth rich yellow trumpet, 2 for 15c; 75c doz.

Poeticus Ornatus—Pure white, yellow cup, margin deep scarlet. This variety is nearly a month earlier than Poeticus out of doors and is also considered a splendid forcer. It is not sweetly perfumed as the Poeticus but is larger, showier and earlier; each 5c; 50c per doz.

LILIES

No flower is more expressive of the idea of queenly beauty and faultless purity than the Lily. Nearly every variety we offer will, with a little care, endure the severity of our winters, and some are among the most hardy of our garden flowers. Most lilies last a long time after cutting and are admirably suited for decorative purposes.

LILIUM CANDIDUM (Annunciation or Madonna Lily)

Ready Now.

A hardy garden and forcing sort that has long been one of the most popular of all lilies. It is still one of the finest single clear white flowers in cultivation and its rich perfume is very attractive. It should be planted in the fall and usually blooms in June. Outdoors it thrives best where it can remain undisturbed for several years. Height outdoors in the open usually three to four feet. First size Bulbs, 20c each, \$2.00 doz.; Second size Bulbs, 15c each, \$1.50 doz.

LILIUM LONGIFLORUM (Multiflorum)—Ready in October

Similar in form to *Lilium Harrisii* and preferred by some to that variety. It does not come into bloom as early, but the flowers are of better substance. Extensively used by florists for cut flowers. When grown in the open ground it blooms in June and July. Height outdoors in the open usually two to three feet. The bulbs can be planted the following spring if received too late to plant in the fall. Japan grown bulbs, 7 to 9 inches, 30c each; \$3.00 per dozen, postpaid.

SPECIOSUM RUBRUM—Ready Now

The white or pink petals are thickly dotted with rose or crimson spots. This hardy, strong growing sort is sometimes called "Crimson Banded" and is considered by many the most satisfactory for garden cultivation. 30c each; \$3.00 per doz., postpaid.

CALIFORNIA WHITE CALLAS

Aethiopian (White Calla Lily)—We have arranged for a supply of particularly nice, clean stock of good flowering roots and offer extra large roots. 40c each, 2 for 75c.

FREESIA

Improved Purity—A perfectly pure white of large size and good substance. Our own stock and the finest Freesia now on the market. Selected bulbs, 5c each; 40c doz.

CROCUS

Among the earliest to blossom in the Spring is this beautiful little flower, lifting its head almost before the snow has disappeared. A desirable effect is produced by setting bulbs here and there over the lawn. Lift the turf and insert the bulbs about two inches. They will care for themselves and when once planted will remain uninjured in the ground and bloom for years.

For decorative purposes in the house, in winter and spring, the splendor of coloring renders the Crocus invaluable. Six or eight bulbs should be planted in a 5-inch pot.

Price 50c per box—Postpaid

DIRECTION FOR PLANTING THE RAINBOW MIXTURE OF GLADIOLI BULBS

Gladioli as a summer Cut Flower has double value for the brave field show of Bloom as well as its generous supply of Cut Flowers. Gladioli Flowers last longer when cut than most any other, and develop in water when cut to even greater perfection, and in the "Good Hot Old Summer Time" when other Cut Flowers wilt quickly. Any good rich garden soil will grow Gladioli. Bulbs may be planted anytime from March 1st on until June 1st, but Plantings in rotation of from two to three weeks apart will insure a more even succession of bloom. Set bulbs about 3 inches deep and two inches apart in a row, and rows from 12 to 18 inches apart. If planted in beds plant 4 to 5 inches apart each way. When cutting flowers always cut about 6 inches above ground thus the bulbs will keep on growing to maturity, and when tops have served their purpose the bulbs may be dug and stored in a frost-proof place and again be ready for planting next season. We suggest planting Rainbow Collection three weeks apart from March 1st until June 1st (four collections in all.) Price \$2.00 and you will be delighted with the beautiful Collection of Gladioli Flowers you will have in succession from about June 15th to September 15th.

PEONIES—Ready Now.

Peonies must be planted in the fall or early spring.

Peonies thrive in almost any soil but are best in a deep rich loam moist but well drained. If good and rich, use manure as mulch only. If poor, thoroughly mix in about one-third of well rotted manure or a little ground bone, adding a little river sand or fine gravel if inclined to be sticky or heavy. Fresh manure **MUST NOT** be mixed in the soil. Dig 1½ to 2 feet deep; plant 2 1-2 to 3 feet apart, 2 feet in rows for hedges. Cover the eyes or buds three inches but do not pack the soil hard. Mulch the first winter with coarse strawy manure after the ground begins freezing, to prevent the frost lifting the plants out. Each winter scatter a half bushel of ordinary manure or much less of concentrated fertilizer around each plant for a distance of 2 1-2 feet square for fertility. After hard freezing is over remove the coarse parts and stir the finer in, taking care not to disturb the buds just beginning to appear. Cut off and burn the tops each November. Cultivate well especially the first two seasons. When a clump gets too large, shown by smaller and fewer flowers, dig up, divide and replant in a new place in the fall. Here Peonies do best in full sun, although they do fairly well if not shaded more than half a day.

Each

Couronne D'Or —Large, late, white yellow reflex; blooms freely.....	50c
Duchesse De Nemours —Fine mid-season, ivory white; blooms freely.....	40c
Duchesse D'Orleans —Soft pink shaded salmon; blooms freely.....	30c
Duke Wellington —White, sulphur center, late, tall, fine	50c
Edulis Superba —A very early, very free blooming, deep rose pink; extra good commercial variety	40c
Felix Crousse —Large, rich, even, dazzling ruby red, mid-season.....	75c
Festiva Maxima —A very large, pure white flecked.....	50c
Queen Emma —A very large, very full, bright pink rose type flower, fragrant, plant erect, compact, growth strong, blooms freely, mid-season to late, the best shipper and best keeper we have grown	\$1.00

Zoe Calot —Very large, enchantress pink, heavy stem, mid-season.....	40c
Peonies to Color —White, double, 35c each, \$3.50 dozen; Red, Double, 35c each, \$3.50 dozen; Pink, Double, 30c each, \$3.00 dozen.	
Peonies —Pennant mixed, 25c each, \$2.75 dozen.	

**PLEASE REMEMBER: If You Want Flowers in Your House This
Winter or in Your Garden Next Spring, You Must Plant
Bulbs Now.**

HARDY FLOWERING SHRUBS

Ready After Oct. 15th

The shrubs which are grown for our trade have been selected with great care, and contains only the hardy, thrifty kinds. The stock we offer is one year field grown, well rooted dormant plants, 12 to 18 inches high. We think our customers will have much better success with this thrifty young stock than heavy, older plants. They will soon catch up in growth with larger stock, as they bear the shock of transplanting much better. All the one year stock we mail postpaid to your door.

Buddleia (Butterfly Bush)—One of the most desirable summer-flowering shrubs, beginning to bloom in July, and continues until cut by severe frost. The flowers are of a pleasing shade of violet-mauve, and are borne in dense cylindrical spikes. Succeeds everywhere and blooms freely the first season. In the North it dies down to the ground in winter, forming a new bush each year 5 to 6 feet high, and producing hundreds of fragrant panicles of flowers. 40c each.

Forsythia (Golden Bell)—This is the most beautiful of the very early spring blossoms. The flowers are bright yellow, and especially attractive for decorating the home during the first spring days when flowers of all kinds are scarce. Golden Bell is a fine, hardy shrub, and a great favorite for the home grounds. Height 5 to eight feet. It is a native of China and Japan. 25c each; 3 for 60c.

HYDRANGEA—HILLS OF SNOW

Arborescens—This magnificent American Hydrangea is the most beautiful hardy flowering shrub introduced in many years. It attains a height of five feet to six feet, and about the same breadth. Trusses large and beautifully formed; the blooms are of the very largest size, pure snow white; the foliage is finely finished. Fine, strong, well-grown plants. 50c each, \$5.00 dozen.

Hydrangea Grandiflora—Flowers are formed in large white trusses 5 to 10 inches in length, remaining in bloom until killed by frost. The flowers turn rosy pink in the fall. It is as hardy as an oak and a profuse bloomer. Splendid for cemetery. Plain white. Each 50c, per dozen \$5.00.

Snowball—Hardy; attains a height of 3 to 10 feet. Is filled with white balls of bloom in the last part of May. 40c each, \$4.00 per dozen.

Lilac—Well known shrub. Purple. 50c each.

Spirea, Billardi—Upright spikes of rich pink flowers from July on. This is an exceptionally hardy, strong, growing Spirea. 40c each, \$4.00 dozen.

Spirea, Van Houttei—The grandest Spirea and one of the finest shrubs known; it is of compact habit and at the flowering season, in May and June, is a complete fountain of white bloom. 35c each, \$3.50 per dozen.

ORNAMENTAL SHRUBS FOR HEDGES

Don't try to have a full grown hedge at once by planting large 3 to 4 foot plants. One year old plants will be much more satisfactory and less expensive. We offer strong one year 12 to 18 inches high dormant plants. All shrubs are delivered postpaid.

Japanese Barberry (*Berberis Thunbergii*)—Hardy, dense, low growing shrub, with spreading, deeply grooved, thorny branches and small, bright green, oval leaves that turn to brilliant shades of orange and yellow in autumn; the large bright red berries remain on the bushes throughout the winter, giving a cheery bit of color to the place in which it grows. Fine for borders and for low ornamental hedges.

This is the variety approved by the United States Dept. of Agriculture. The only Barberry it is safe to plant. 25c each; 12 for \$2.50; 100 for \$10.00.

Amoor River Privet—A large shrub with upright branches. Splendid for hedges. Hardy. Flowers white. One-half to two feet tall. Bushy. \$1.00 a doz. \$7.00 per hundred.

Japanese Privet (*Ibota*)—Valuable new variety. More branching than California Privet, bright green foliage and small clusters of fragrant white flowers. Its great value is for hedges, being absolutely hardy everywhere, and may be trimmed to any desired form. Prices: 1 year branched 12 to 18 inches, 12 for \$1.00; 100 for \$8.00.

HARDY CLIMBING VINES

Ready After Feb. 15th

All Vines are Prepaid, and are 2 Year Stock.

Clematis (*Paniculata*)—This beautiful Clematis fills a long felt want for a rapid-growing, hardy, easy-to-transplant, flowering vine. Its beauty is indescribable. It commences to grow very early in the spring and blooms profusely in the late fall. If you plant only one vine, plant the Clematis *Paniculata*. Flowers pure white, star-shaped, about one inch in diameter, borne in large clusters. Plant is a strong, quick grower. Plants set in April or May bloom the next fall. Each 50c.

Honeysuckle (*Hall's Japan*)—An almost evergreen Honeysuckle of the greatest value, being hardy and of strong growth. The flowers are fragrant, of a pure white, changing to yellow, resembling a Cape Jasmine in odor. May to December. Each 50c; 3 for \$1.25.

Chinese Wisteria—One of the most elegant and rapid growing of all climbing plants; attains an immense size, growing at the rate of 15 to 20 feet in a season. Has long pendulous clusters of pale blue flowers in May, June and in autumn. Each, 75c.

Ampelopsis Veitchii (*Japan or Boston Ivy*)—Extremely rapid grower. Handsome, glossy green foliage, which in fall changes to orange and scarlet. Handsome vine for growth on brick or stone walls. 2 years, each 50c. Set of one each of Hardy Climbing Vines, postpaid for \$2.00.

Place Your Order Now, and We Will Make Delivery When Time is Most Suitable.

SHEEP GUANO—Best Plant Food for House Plants, Lawn and Garden. 1 lb. 10c; 3 lbs. for 25c, postpaid; 50 lbs. \$1.50; 100 lbs. for \$2.50, by express or freight at purchaser's expense.

ORCHARD SPRAY MATERIAL

Unmailable—Insecticides containing Poison CANNOT be Sent by Mail.

INSECT DESTROYERS

Black Leaf 40, is a solution of Nicotine Sulphate. It is highly recommended by Experiment Stations throughout the United States as a spray for soft bodied sucking insects. For spraying only. Directions must be followed carefully: 1 oz. bottle, 35c; 1-2 lb. can, \$1.25, makes 40 to 100 gallons; 2-lb. can, \$3.50, makes 200 to 500 gallons; 10-lb. can, \$13.50, makes 840 to 2100 gallons.

Lime Sulphur (Solution)—The best remedy for San Jose scale. One gallon makes twelve. Also one of the best summer sprays, as it is an excellent fungicide. When used in summer dilute with 20 to 30 parts water. Write for prices in barrel lots; also car lots.

Dry Lime Sulphur—For dormant spray use 12 to 15 lbs. to each 50 gallons of water. For summer spray, 3 to 4 lbs. to each 50 gals. of water. Lb., 35c; 5 lbs., \$1.50.

Ant Exterminator—Will rid a place of ants in 24 hours. Price, 50c.

Bordeaux Mixture (Dry)—The best fungicide for curing and preventing black rot, mildew, blight, leaf curl, scab or other fungoid diseases on fruits and plants. 1 lb. will make 5 gallons liquid. Lb., 50c; 4 lbs. for \$1.00.

Carbon Disulphide—For ants and cut worms. 1 lb., 50c.

Fish-Oil Soap—Standard wash for trees and plants where insects and eggs affect the bark. Lb., 30c; 5 lbs., \$1.25.

Flowers of Sulphur—Lb., 10c; 10 lbs., 75c; 50 lbs., \$2.00; 100 lbs., \$4.00.

Nico-Fume Liquid—For fumigating or spraying; contains 40 per cent. nicotine. 1-4 lb., 65c; 1 lb., \$2.25; 4 lbs., \$8.00; 8 lbs., \$15.00.

"Nico-Fume." A Tobacco Paper for Fumigating—Strips of paper strongly saturated with Nicotine. These, when suspended and lighted, make one of the best and simplest methods of fumigating greenhouses. Use 4 to 6 sheets for ordinary house 100 feet long by 20 feet wide. Price, 24 sheets, \$1.25; 144 sheets, \$5.50; 288 sheets, \$10.00.

Hall's Nicotine Fumigator—Lights quickly, burns evenly and will not go out. No waste; every particle is consumed. It retains its strength indefinitely. 2 1-2-lb. tin, \$2.50; 10-lb. tin, \$8.50.

Arsenate of Lead (Dry)—For dusting and spraying. Solves the problem of controlling practically all leaf-eating insects in an efficient manner. 1 lb., 50c; 4 lbs., \$1.25.

Pyrrox—Kills all leaf-eating insects, destroys fungus growth, blight and rot. Mixes easily in cold water, sprays without clogging and sticks to foliage. Price, lb., 50c; 5 lbs., \$1.50.

Hall's Free Nikoteen—40 per cent. grade. For spraying and fumigating. $\frac{1}{4}$ lb 65c; 1 lb \$2.25; 4lb \$8.00; 8 lb \$14.50.

Paris Green—A poisonous insecticide in powder form, for insects which chew. When applied as a powder, use one part Paris Green to 100 parts plaster or flour. As a liquid, one lb. of Paris Green in 150 to 300 gallons water; if used on fruit trees add one pound quick-lime. Changes with market. 1-4 lb., 20c; 1-2 lb., 35c; per lb., 55c.

Slug Shot, Hammond's—Guaranteed to destroy potato bugs, and those on tomato and egg plants, currant worms, cabbage lice and worms. Price, 1 lb., 20c; 5 lb. package, 75c.

Tobacco Dust (Regular Grade)—5 lbs., 30c; 10 lbs., 55c; 100 lbs., \$3.00.

Tree Tanglefoot—Perfect safeguard for trees. Lb., 60c; 5 lbs., \$2.75.

Reed's Kalosecta—80 per cent. of all the destructive insects have a life cycle that passes thru the soil. Reed's Kalosecta is a preparation that destroys this insect life in the soil before it reaches the foliage.

Save the Roots and You Save the Life. Preparation No. 1 for trees, 1 lb. cans, 75c.

Preparation No. 2 for plants, 1-lb. cans, \$1.00.

Prices on all insecticides are subject to change. Chemical market variable.

Apple Picking Bags—Each \$2.50
Orchard Ladders—Ask for Price.

AUTO SPRAY NO. 5-

A high pressure yet light and durable sprayer made entirely of brass. It is **DOUBLE ACTING**, producing a continuous spray, and will generate a pressure of 180 pounds per sq. inch. It operates with half the effort and must not be confused with sprayers of similar design which are single acting.

AUTO SPRAY—No. 26C, Continuous Atomizer—All Brass.

The Auto-Spray No. 26 is so designed that the pressure generated on the down stroke of the plunger allows this sprayer to produce a continuous mist-like spray. This is a decided advantage over ordinary atomizers, which are intermittent, in that spraying can be done more rapidly and with much less exertion. This sprayer has a number of advantages which other Atomizers lack. Note the two nozzle caps yoked together to prevent loss, one straight and one angular.

The container can be detached for refilling and cleaning by simply unscrewing from the pump cylinder.

The ball valve which prevents this stored up compressed air from returning into the pump cylinder, is conveniently located in a brass valve seat, fastened stationary in the end of the pump cylinder, and readily cleaned or replaced. By removing the tank from this sprayer, the syphon tube can be easily and quickly cleaned. Each, \$1.50.

FERTILIZERS—For the Physical Improvement of Soils For Lawn, Garden and House Plants.

Vigoro—A high-powered plant food—analysis much higher than florist's bone. Full directions how to apply with every bag.

25-lb. bags, \$1.50; 50-lb. bags, \$2.50; 100-lb. bags, \$4.50; not prepaid.

Pulverized Sheep Manure—This is a pure, natural manure, and its effect is immediate; it is excellent for mixing with the soil for greenhouse plants—one part manure and six parts soil. Strewn over and dug into the vegetable garden or placed directly in drills or hills, it promotes a rapid, steady growth until maturity. It makes the richest, safest and quickest liquid manure. For use in liquid form, one pound to five gallons of water will make a liquid which can be used with safety daily if necesasry. As a top dressing for lawns there is nothing better. Promotes a steady and rapid growth in the vegetable garden. Price: 1 lb., 10c; 3 lbs. for 25c, postpaid; 50 lbs., \$1.50; 100 lbs. for \$2.50, by express or freight at purchaser's expense.

Hydrated Lime—Hydrated Lime used for top dressing on lawns and mixing soil for potting plants. 50 lbs. to cover 1,000 square feet. Price: 10-lb bag, 30c; 50-lb. bag, 70c; not prepaid.

Sulphate of Ammonia—Used for its Nitrogen. A very desirable fertilizer for all plants in which a large leaf development or rapid growth is desired. Use 1 lb. to 50 square feet of ground or bench, or a tablespoonful to a bushel of soil, or 3 gallons of water. Price: 1 lb., 15c; 10 lbs. for \$1.00.

Nitrate of Soda or Chili Saltpeter—Nitrate of Soda is not a susbstitute for other Manures, but we recommend it as the cheapest and best form in which to apply Nitrogen to plants. Gardeners who are using farm manure should continue to use it, but use Nitrate of Soda in addition to other fertilizers. If your object is to grow maximum crops you must furnish the plant with Nitrogen.

How To Use Nitrate of Soda

Remove the lumps before using and break them up, which can be done by pounding. Use as a top-dressing at the rate of 100 lbs. per acre on the following vegetables, when plants are well established: Beets, Cabbage, Cauliflower, Cucumber, Celery, Egg Plant, Lettuce, Spinach, Onions.

For Asparagus, a top-dressing of 250 lbs. per acre just as soon as the first shoots make their appearance. For Strawberries, a top-dressing of about 100 lbs. per acre after the plants have blossomed.

For the Home Garden apply as a solution one ounce to two gallons of water. Price: (subject to market changes), lb., 15c; 10 lbs. for \$1.00.

Write for prices on larger quantities.

Acid Phosphate—Sixteen per cent available. Bone phosphate the most available form. Used on grain crops and others requiring an excessive amount of phosphoric acid. Price: Lb., 15c; 12 lbs. for \$1.00.

POULTRY FEEDS—REMEDIES AND SUPPLIES

Spring Months should be the Poultryman's Harvest Time. But to get the best results means

The Right FEEDS, Remedy and Supplies.

Our Steel Cut Scratch Hen Food is a well proportion ration. We sell small quantities, as well as car-load lots. We are exclusive distributors in this section for the well-known and celebrated Conkeys Poultry Remedies.

CARBOLA—THE DISINFECTING WHITE PAINT

A white paint in powder form combined with a disinfectant many times stronger than Carbolic acid. Carbola is non-poisonous and non-caustic. It is applied with brush or sprayer and dries pure white. Does not flake or peel off. Carbola kills both germs and vermin.

One pound of Carbola makes 1 gallon disinfectant with wash and will cover 200 square feet.

Carbola is put up in the following sizes— with full directions how to apply on each package:

1 1/2 lb. pkgs.	Each 30c
5 lb. pkgs.	Each 75c
10 lb. pkgs.	Each \$1.25
50 lb. bag	Each \$5.00

By mail add 1c per lb. plus 4c postage.

LEG BANDS

Improved Champion Adjustable Leg Bands

The most popular band on the market. Made in one size and adjustable to fit any fowl. Held by double lock. Made of aluminum. Doz., 15c; 25 for 25c; 50 for 40c; 100 for 75c, postpaid.

If numbers are desired in rotation, 25 or more bands must be ordered.

Spirol Leg Bands—Mark your hens and pullets differently. Know what you are doing. Spirol bands are made of seasoned celluloid. Last a life-time. Slip on like a key-ring. Birds cannot lose them. Light as a feather. Will not fade. Colors: black, white, dark blue, pink, light blue, red, green, yellow, purple. Prices: Doz., 15c; 25 for 25c; 50 for 40c; 100 for 75c; postpaid.

ELECTRIC NON-KINKABLE GARDEN HOSE

Best hose, finest quality of rubber. Will not kink and will last for years. We can supply any length and will fit with hose couplings if advised when ordering. Price. 3/4-inch per 25 feet, \$5.75; 50 feet, \$11.00; 100 feet, \$20.50.

Greenhouse Glass—All Sizes—Ask for Price by the Box.

Glazing Putty—\$1.75 Gallon

Glazing Gun—used to apply Glazing Putty—\$2.50 Ea.

HOT BED SASH—Full size Hot Bed Sash, open, for three rows, 10-in. glass, size 3 ft. x 6 ft., 1 3/8 in. thick; sash furnished with cross braces; Price per Sash, only \$2.00, F. O. B. our store.

KEEP YOUR BIRDS A SINGING

BASKET MAKING MATERIALS

On the following basketry materials add postage to your order if to go by parcel post.

RAFFIA FIBRE FOR BASKETS, ETC.

The Raffia which we import is the finest grade to be obtained and should not be compared with the cheaper coarse material offered by many and used principally as tying material in gardens and nurseries. Besides the natural shade, we have it in 10 different colors: dark red, green, dark blue, dark brown, orange, black, yellow, pink, bright red, and lavender, a sample of which will be mailed you upon request.
